		SFace900	3
		TF1700	17
Entrance Control	Flap Barrier	FBL 4022	1
		FBL 4222	1
Biometric Lock	Bluetooth Lock	TL400B	1

Function Description

F18 is an innovative biometric fingerprint reader for access control application. With high-performance firmware functions and compact design, it has become one of ZKTeco's most popular devices. With optimization of both hardware platform and firmware, the new F18 is able to verify fingerprints with even higher efficiency.

TF1700 is one of the world's smallest Ethernet connection-based fingerprint terminals, used for access control and time attendance features, with IP65 waterproof housing. With its IP65 rated rugged waterproof and dustproof structure, TF1700 offers extra durability in harsh conditions such as outdoor environments.

The FBL4000 Series is a single lane flap barrier turnstile series designed for smooth and silent operation and draws very little power. It's made of stainless steel which makes FBL4000 Pro highly durable.

The FBL4200 Series is a Flap Barrier Turnstile for additional Lane series designed for smooth and silent operation and draws very little power. It's made of stainless steel which makes FBL4200 highly durable.

The TL400B is allowed various access for your convenience - fingerprint/ password/card/key/smart phone. Also, Enhanced security by random password for code access.
